FUND SUMMARY

Investment Objective: The Fund seeks income and capital appreciation.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts on purchases of Class A shares if you and/or your family invest, or agree to invest in the future, at least \$25,000 in the Fund. More information about these and other discounts is available from your financial professional and in **How to Purchase Shares** on page 11 of the Fund's Prospectus and in **Purchase, Redemption and Pricing of Shares** on page 51 of the Statement of Additional Information.

Shareholder Fees (fees paid directly from your investment)	Class A	Class C	Class I
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	5.75%	None	None
Maximum Deferred Sales Charge (Load)	None	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None	None	None
Redemption Fee	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	1.84%	1.84%	1.84%
Distribution and/or Service (12b-1) Fees	0.25%	1.00%	None
Other Expenses ⁽¹⁾	0.40%	0.40%	0.40%
Total Annual Fund Operating Expenses ⁽¹⁾	2.49%	3.24%	2.24%
Fee Waiver and/or Expense Reimbursement ⁽¹⁾⁽²⁾	(0.25)%	(0.25)%	(0.25)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expenses Reimbursement	2.24%	2.99%	1.99%

(1) Based on an estimate for the current fiscal year.

(2) The Trust, on behalf of the Fund, has entered into an operating expense limitation agreement with the Fund's adviser, pursuant to which Princeton Fund Advisors, LLC has contractually agreed to waive management fees and to make payments to limit Fund expenses, for at least one year from the effective date of this prospectus so that the total annual operating expenses (exclusive of certain fees or expenses) do not exceed 2.24%, 2.99% and 1.99% of average daily net assets attributable to Class A, Class C and Class I shares, respectively. The agreement excludes any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, fees and expenses associated with instruments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses), borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees and contractual indemnification of Fund service providers (other than the adviser) from the expense limitation. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (within the three years after the fiscal year end in which the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits. This agreement may be terminated only by the Fund's Board of Trustees, on 60 days written notice to Princeton Fund Advisors, LLC.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

Class	1 Year	3 Years
Class A	\$789	\$1284
Class C	\$302	\$975
Class I	\$202	\$676

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance.

Principal Investment Strategies: The Fund seeks to achieve its investment objective by investing primarily in asset-backed debt securities ("ABS"), which are predominantly backed by mortgages on real estate. Such mortgage-backed securities ("MBS") include residential mortgage-backed securities ("RMBS") and commercial mortgage-backed securities ("CMBS") that are rated below investment grade, or not rated. The Fund may also invest in other types of asset-backed or debt securities. These investments may include securities rated as "Senior Alt-A" or "subprime", which may present higher risk of default than securities rated as "prime", but which the sub-adviser believes are undervalued. Investments rated below investment grade are also known as "junk bonds". By using proprietary fundamental analysis and modeling key variables, the portfolio managers seek investments expected to provide steady and substantial cash flows.

The Fund will typically invest in both fixed and floating rate securities, although the ratio between the two will vary from time-to-time, depending upon market conditions and available investment opportunities. Investments will include deep value, high cash flow, short duration RMBS. The Fund invests without restriction as to issuer capitalization, country, credit quality and the maturity of fixed income securities. The Fund may employ risk-reducing hedging techniques using short selling, futures contracts, options, repurchase agreements, or credit-default swaps and total return swaps.

The Fund's adviser has delegated management of the Fund's portfolio to a sub-adviser. However, the adviser sets the Fund's investment objective, has overall supervisory responsibilities for the general management and investment of the Fund's securities portfolio, and retains final authority with respect to the Fund's portfolio if it believes an investment is not consistent with the Fund's investment guidelines and restrictions. The adviser is also responsible for ongoing performance evaluation, monitoring, and due diligence with respect to the sub-adviser.

Sub-Adviser's Investment Process

Deer Park Road Management Company, L.P. ("Deer Park" or the "sub-adviser") utilizes a credit analysis-based strategy which combines fundamental research with a proprietary valuation process. Deer Park seeks to identify and capitalize upon attractive investment opportunities in the MBS and ABS markets.

Although the portfolio is actively traded on an opportunistic basis, Deer Park's philosophy is to buy securities that they are comfortable holding to term. The Fund seeks to derive portfolio returns through fundamental analysis and security selection.

Principal Investment Risks: *As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund's net asset value and performance.*

The following principal risks may apply to the Fund's investments:

- **ABS, MBS, RMBS and CMBS Risk:** ABS, MBS, RMBS and CMBS are subject to credit risk because underlying loan borrowers may default. Additionally, these securities are subject to prepayment risk because the underlying loans held by the issuers may be paid off prior to maturity. The value of these securities may go down as a result of changes in prepayment rates on the underlying mortgages or loans. During periods of declining interest rates, prepayment rates usually increase and the Fund may have to reinvest prepayment proceeds at a lower interest rate. CMBS are less susceptible to this risk because underlying loans may have prepayment penalties or prepayment lock out periods.
- **Credit Risk:** There is a risk that issuers and counterparties will not make payments on securities and other investments held by the Fund, resulting in losses to the Fund. In addition, the credit quality of securities held by the Fund may be lowered if an issuer's financial condition changes.
- **Defaulted Securities Risk:** Repayment of defaulted securities and obligations of distressed issuers (including insolvent issuers or issuers in payment or covenant default, in workout or restructuring or in bankruptcy or in solvency proceedings) is subject to significant uncertainties. Investments in defaulted securities and obligations of distressed issuers are considered speculative as are junk bonds in general.
- **Derivatives Risk:** Futures, options and swaps involve risks possibly greater than the risks associated with investing directly in securities including leverage risk, tracking risk (the derivatives may not track the underlying securities) and counterparty default risk. Option positions may expire worthless exposing the Fund to potentially significant losses.
- **Fixed Income Risk:** The value of the Fund's investments in fixed income securities will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities. During periods of sustained rising rates, fixed income risks may be amplified. Rising rates may decrease liquidity and increase volatility, which may make portfolio management more difficult and costly to the Fund and its shareholders.
- **Floating Rate Debt Risk:** Changes in short-term market interest rates will directly affect the yield on investments in floating rate debt. If short-term market interest rates fall, the yield on the Fund's shares will also fall. Conversely, when short-term market interest rates rise, because of the lag between changes in such short-term

rates and the resetting of the floating rates on the floating rate debt in the Fund's portfolio, the impact of rising rates will be delayed to the extent of such lag. This contrasts with the Fund's investments in fixed rate instruments, where a rise in interest rates generally causes values to fall.

- *Hedging Risk:* As a result of certain strategies designed to mitigate market risk, the Fund may not participate as fully in positive markets because of these strategies and each strategy could negatively impact the Fund.
- *High Yield (Junk) Bond Risk:* Lower-quality fixed income securities, known as "high yield" or "junk" bonds, present greater risk than bonds of higher quality, including an increased risk of default. An economic downturn or period of rising interest rates could adversely affect the market for these bonds and reduce the Fund's ability to sell its bonds. The lack of a liquid market for these bonds could decrease the Fund's share price.
- *Issuer-Specific Risk:* The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- *Leverage Risk:* The use of leverage by the Fund, such as borrowing money for liquidity purposes, or the use of derivatives, will cause the Fund to incur additional expenses and magnify the Fund's gains or losses.
- *Liquidity Risk:* Liquidity risk exists when particular investments of the Fund would be difficult to purchase or sell, possibly preventing the Fund from selling such illiquid securities at an advantageous time or price, or possibly requiring the Fund to dispose of other investments at unfavorable times or prices in order to satisfy its obligations.
- *Management Risk:* The sub-adviser's judgments about the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests (long or short) may prove to be incorrect and may not produce the desired results. Additionally, the adviser's judgments about the potential performance of the sub-adviser may also prove incorrect and may not produce the desired results.
- *Market Risk:* Overall fixed income securities and derivatives market risks may affect the value of individual instruments in which the Fund invests. Factors such as domestic and foreign economic growth and market conditions, interest rate levels, and political events affect the securities and derivatives markets. When the value of the Fund's investments goes down, your investment in the Fund decreases in value and you could lose money.
- *No History of Operations Risk:* The Fund is a new mutual fund and prior to its recent commencement of operations had no history of operations for investors to evaluate.
- *Non-Diversified Risk:* The Fund's portfolio may focus on a limited number of investments and will be subject to the potential for greater volatility than a diversified fund.
- *Repurchase Agreement Risk:* The Fund may enter into repurchase agreements in which it purchases a security (known as the "underlying security") from a securities dealer or bank, therefore the repurchase agreements are subject to counterparty default risk.
- *Short Position Risk:* The Fund will incur a loss as a result of a short position if the price of the short position instrument increases in value between the date of the short position sale and the date on which the Fund purchases an offsetting position. Short positions may be considered speculative transactions and involve special risks, including greater reliance on the ability to accurately anticipate the future value of a security or instrument.

Performance: Because the Fund has only recently commenced investment operations, no performance information is presented for the Fund at this time. In the future, performance information will be presented in this section of this Prospectus. Also, shareholder reports containing financial and performance information will be mailed to shareholders semi-annually. Updated performance information will be available at no cost by visiting www.deerparkfund.com or by calling 1-888-868-9501.

Investment Adviser: Princeton Fund Advisors, LLC

Sub-Adviser: Deer Park Road Management Company, LP

Portfolio Managers: Michael Craig-Scheckman, Chief Executive Officer and Scott Burg, Chief Investment Officer, of Deer Park Road Management Company, LP have each served as portfolio manager of the Fund since it commenced operations in October, 2015.

Purchase and Sale of Fund Shares: You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading. The minimum initial investment in Class A, Class C and Class I shares is \$2,500, \$2,500 and \$100,000, respectively. There is a minimum amount of \$100 for subsequent investment in any share class. These minimums may be waived at the discretion of the adviser.

Tax Information: Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. However, these dividend and capital gain distributions may be taxable upon their eventual withdrawal from tax-deferred plans.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund, the adviser or their related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective:

The Fund seeks income and capital appreciation. The Fund's investment objective may be changed by the Fund's Board of Trustees upon 60 days written notice to shareholders.

Principal Investment Strategies:

The Fund seeks to achieve its investment objective by investing primarily in asset-backed debt securities ("ABS"), including mortgage-backed debt securities ("MBS") such as residential mortgage-backed securities ("RMBS") and commercial mortgage-backed securities ("CMBS") that are rated below investment grade or not rated. The Fund will invest in asset-backed debt securities, which the portfolio managers believe are deeply-discounted and have the potential to provide steady and substantial cash flows. The Fund invests predominately in asset-backed securities secured by mortgages on real estate. The Fund may also invest in other types of asset-backed or debt securities. These investments may include securities rated as "Senior Alt-A" or "subprime", which may present higher risk of default than securities rated as "prime", but which the sub-adviser believes are undervalued. Investments rated below investment grade are also known as "junk bonds". Deer Park believes that the short duration, high cash flow nature of the bonds makes them less susceptible to volatility, and they expect them to generate returns that are uncorrelated with equities or high yield bonds. The Fund will typically invest in both fixed and floating rate securities, although the ratio between the two will vary from time-to-time, depending upon market conditions and available investment opportunities. The Fund's investments will include deep value, high cash flow, short duration RMBS.

Sub-Adviser's Investment Process

Although the portfolio is actively traded on an opportunistic basis, Deer Park's philosophy is to buy securities that they are comfortable holding to term. The Fund seeks to derive portfolio returns through fundamental analysis and security selection. The sub-adviser's proprietary valuation process seeks to exploit the disparity between the intrinsic and market values of these securities, attempting to capitalize on the traditionally inefficient MBS and ABS markets. Deer Park will seek to leverage its dealer network that has been developed over two decades to source undervalued investments. To achieve its objective of minimizing portfolio volatility, Deer Park will also employ risk management controls and techniques. These are primarily implemented through the security selection process and through proper portfolio diversification, but may also include long/short, risk-reducing hedging techniques using short selling, futures contracts, options, repurchase agreements, or credit-default swaps and total return swaps. These strategies seek returns by investing in debt securities of any type of issuer of any credit quality, including "high yield" securities, while employing selected risk reducing strategies.

Through the implementation of Deer Park's investment strategy, the Fund will seek to generate positive returns in any interest rate environment.

The Fund's adviser has delegated management of the Fund's portfolio to the sub-adviser. However, the adviser retains the final authority with respect to the sub-adviser's selection of specific securities if it believes an investment or allocation is not consistent with the Fund's investment guidelines and restrictions, or Internal Revenue Code rules and regulations that apply to the Fund. The adviser is responsible for ongoing performance evaluation and monitoring of the sub-adviser.

Princeton Fund Advisors, LLC's Investment Process

The adviser's investment process combines risk management, due diligence, experienced portfolio construction, and portfolio monitoring. Portfolio design begins with the establishment of objectives for precise, quantifiable measures of risk, such as standard deviation of monthly returns. The adviser's research team combines quantitative and qualitative research in its evaluation of the strategies to be executed by the sub-adviser. The adviser then monitors strategies, as-

executed, for investment performance and achievement of risk objectives. The adviser has overall supervisory responsibilities for the general management and investment of the Fund's securities portfolio. A summary of the adviser's process is as follows:

- Setting the Fund's overall investment objective
- Monitoring and evaluating the performance of the sub-adviser, including its compliance with the investment objectives, policies, and restrictions of the Fund
- Implementing procedures to ensure that the Fund complies with its investment objective, policies and restrictions
- Initial and on-going due diligence with respect to the sub-adviser

The adviser monitors the sub-adviser to assure that investments that are made are consistent with the Fund's strategy. The adviser will also monitor portfolio-level risk.

Principal Investment Risks:

The following risks may apply to the Fund's direct investments as well the Fund's indirect risks through investing in Underlying Funds.

- *ABS, MBS, RMBS and CMBS Risk:* ABS, MBS, RMBS and CMBS are subject to credit risk because underlying loan borrowers may default. Because ABS are typically backed by consumer loans, their default rates tend to be sensitive to the unemployment rate and overall economic conditions. RMBS default rates tend to be sensitive to these conditions and to home prices. CMBS default rates tend to be sensitive to overall economic conditions and to localized commercial property vacancy rates and prices. Certain individual securities may be more sensitive to default rates because payments may be subordinated to other securities of the same issuer. Additionally, ABS, MBS, RMBS and CMBS are subject to prepayment risk because the underlying loans held by the issuers may be paid off prior to maturity. The value of these securities may go down as a result of changes in prepayment rates on the underlying mortgages or loans. During periods of declining interest rates, prepayment rates usually increases and the Fund may have to reinvest prepayment proceeds at a lower interest rate. CMBS are less susceptible to this risk because underlying loans may have prepayment penalties or prepayment lock out periods.
- *Credit Risk:* There is a risk that issuers and counterparties will not make payments on securities and other investments held by the Fund, resulting in losses to the Fund. In addition, the credit quality of securities held by the Fund may be lowered if an issuer's financial condition changes. Lower credit quality may lead to greater volatility in the price of a security and in shares of the Fund. Lower credit quality also may affect liquidity and make it difficult for the Fund to sell the security. Default, or the market's perception that an issuer is likely to default, could reduce the value and liquidity of securities held by the Fund, thereby reducing the value of your investment in Fund shares. In addition, default may cause the Fund to incur expenses in seeking recovery of principal or interest on its portfolio holdings. Credit risk also exists whenever the Fund enters into a foreign exchange or derivative contract, because the counterparty may not be able or may choose not to perform under the contract. When the Fund invests in foreign currency contracts, or other over-the-counter derivative instruments (including options), it is assuming a credit risk with regard to the party with which it trades and also bears the risk of settlement default. These risks may differ materially from risks associated with transactions effected on an exchange, which generally are backed by clearing organization guarantees, daily mark-to-market and settlement, segregation and minimum capital requirements applicable to intermediaries. Transactions entered into directly between two counterparties generally do not benefit from such protections. Relying on a counterparty exposes the Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. If a counterparty defaults on its payment obligations to the Fund, this default will cause the value of an investment in the Fund to decrease. In addition, to the extent the Fund deals with a limited number of counterparties, it will be more susceptible to the credit risks associated with those counterparties. The Fund is neither restricted from dealing with any particular counterparty nor from concentrating any or all of its transactions with one counterparty. The ability of the Fund to transact business with any one or number of counterparties and the absence of a regulated market to facilitate settlement may increase the potential for losses by the Fund.
- *Defaulted Securities Risk:* Defaulted securities risk refers to the uncertainty of repayment of defaulted securities and obligations of distressed issuers. Repayment of defaulted securities and obligations of distressed issuers (including insolvent issuers or issuers in payment or covenant default, in workout or restructuring or in bankruptcy or in solvency proceedings) is subject to significant uncertainties. Investments in defaulted securities and obligations of distressed issuers are considered speculative as are junk bonds in general.

- *Derivatives Risk:* The Fund may use futures, options, credit default swaps and total return swaps to increase the Fund's returns or hedge against market or security-specific declines. The Fund's use of derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) the risk that the counterparty to a derivative transaction may not fulfill its contractual obligations; (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset. Derivative prices are highly volatile and may fluctuate substantially during a short period of time. Such prices are influenced by numerous factors that affect the markets, including, but not limited to: changing supply and demand relationships; government programs and policies; national and international political and economic events; changes in interest rates, inflation and deflation and changes in supply and demand relationships. Trading derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities. Derivative contracts ordinarily have leverage inherent in their terms. The low margin deposits normally required in trading derivatives, including futures contracts, permit a high degree of leverage. Accordingly, a relatively small price movement may result in an immediate and substantial loss to the Fund. The use of leverage may also cause the Fund to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations or to meet collateral segregation requirements. The use of leveraged derivatives can magnify the Fund's potential for gain or loss and, therefore, amplify the effects of market volatility on the Fund's share price. Because option premiums paid or received are small in relation to the market value of the investments underlying the options, buying and selling put and call options can be more speculative than investing directly in securities.
- *Fixed Income Risk:* Because the Fund invests in fixed income securities, the value of your investment in the Fund will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities owned by the Fund. In general, the market price of debt securities with longer maturities will increase or decrease more in response to changes in interest rates than shorter-term securities. Other risk factors include credit risk (the debtor may default) and prepayment risk (the debtor may pay its obligation early, reducing the amount of interest payments; or the debtor may pay its obligation later than expected, reducing the returns earned by an investment). During periods of sustained rising rates, fixed income risks may be amplified. If the U.S. Federal Reserve's Federal Open Market Committee ("FOMC") raises the federal funds interest rate target, interest rates across the U.S. financial system may rise. However, the magnitude of rate changes across maturities and borrower sectors is uncertain. Rising rates may decrease liquidity and increase volatility, which may make portfolio management more difficult and costly to the Fund and its shareholders. Additionally, default risk increases if issuers must borrow at higher rates. Generally, these changing market conditions may cause the Fund's share price to fluctuate or decline more than other types of equity investments.
- *Floating Rate Debt Risk:* Changes in short-term market interest rates will directly affect the yield on investments in floating rate debt. If short-term market interest rates fall, the yield on the Fund's shares will also fall. Conversely, when short-term market interest rates rise, because of the lag between changes in such short-term rates and the resetting of the floating rates on the floating rate debt in the Fund's portfolio, the impact of rising rates will be delayed to the extent of such lag. The impact of market interest rate changes on the Fund's yield will also be affected by whether, and the extent to which, the floating rate debt in the Fund's portfolio is subject to floors on the LIBOR base rate on which interest is calculated for such loans (a "LIBOR floor"). So long as the base rate for a loan remains under the LIBOR floor, changes in short-term interest rates will not affect the yield on such loans. In addition, to the extent that the interest rate spreads on floating rate debt in the Fund's portfolio experience a general decline, the yield on the Fund's shares will fall and the value of the Fund's assets may decrease, which will cause the Fund's net asset value to decrease. This contrasts with the Fund's investments in fixed rate instruments, where a rise in interest rates generally causes values to fall. The values of fixed rate securities with longer maturities or duration are more sensitive to changes in interest rates
- *Hedging Risk:* Hedging is a strategy in which the Fund uses short selling, an option, swap, or repurchase agreement to offset the risks associated with other Fund holdings. There can be no assurance that the Fund's hedging strategy will reduce risk or that hedging transactions will be either available or cost effective. The Fund is not required to use hedging and may choose not to do so.
- *High Yield (Junk) Bond Risk:* Lower-quality fixed income securities, known as "high yield" or "junk" bonds, present a significant risk for loss of principal and interest. These bonds offer the potential for higher return, but also involve greater risk than bonds of higher quality, including an increased possibility that the bond's issuer, obligor or guarantor may not be able to make its payments of interest and principal (credit quality risk). If that happens, the value of the bond may decrease, and the Fund's share price may decrease and its income distribution may be reduced. An economic downturn or period of rising interest rates (interest rate risk) could adversely affect the market for these bonds and reduce the Fund's ability to sell its bonds (liquidity risk). Such securities may also include "Rule 144A" securities, which are subject to resale restrictions. The lack of a liquid market for these bonds could decrease the Fund's share price and junk bonds are considered speculative.

- **Issuer-Specific Risk:** The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- **Leverage Risk:** Using derivatives can create leverage, which can amplify the effects of market volatility on the Fund's share price and make the Fund's returns more volatile. The use of leverage may cause the Fund to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations. The use of leverage may also cause the Fund to have higher expenses than those of mutual funds that do not use such techniques.
- **Liquidity Risk:** The Fund is subject to liquidity risk. Liquidity risk exists when particular investments of the Fund would be difficult to purchase or sell, possibly preventing the Fund from selling such illiquid securities at an advantageous time or price, or possibly requiring the Fund to dispose of other investments at unfavorable times or prices in order to satisfy its obligations. Funds with principal investment strategies that involve securities of companies with smaller market capitalizations, non-U.S. securities, Rule 144A securities, derivatives or securities with substantial market and/or credit risk tend to have the greatest exposure to liquidity risk.
- **Management Risk:** The net asset value of the Fund changes daily based on the performance of the securities and derivatives in which it invests. The adviser's and sub-adviser's judgments about the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests (long or short) may prove to be incorrect and may not produce the desired results. Additionally, the adviser's judgments about the potential performance of the sub-adviser may also prove incorrect and may not produce the desired results.
- **Market Risk:** The net asset value of the Fund will fluctuate based on changes in the value of the equity and fixed income securities and derivatives in which the Fund invests. The Fund invests in securities and derivatives, which may be more volatile and carry more risk than some other forms of investment. The price of securities and derivatives may rise or fall because of economic or political changes. Security and derivative prices in general may decline over short or even extended periods of time. Market prices of securities and derivatives in broad market segments may be adversely affected by price trends in commodities, interest rates, exchange rates or other factors wholly unrelated to the value or condition of an issuer.
- **No History of Operations:** The Fund is a new mutual fund and prior to its recent commencement of operations had no history of operations for investors to evaluate. Investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategies, may be unable to implement certain of its investment strategies or may fail to attract sufficient assets, any of which could result in the Fund being liquidated and terminated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such a liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation. Mutual funds and their advisers are subject to restrictions and limitations imposed by the Investment Company Act of 1940, as amended (the "1940 Act"), and the Internal Revenue Code that do not apply to an adviser's management of individual and institutional accounts. As a result, an adviser may not achieve its intended result in managing the Fund.
- **Non-Diversified Risk:** The Fund is non-diversified. This means that it may invest a larger portion of its assets in a limited number of securities or investments than a diversified fund. Because a relatively high percentage of the Fund's assets may be invested in the same securities or in investments that could be in the same or related economic sectors, the Fund's portfolio may be more susceptible to any single economic, technological or regulatory occurrence than the portfolio of a diversified fund.
- **Repurchase Agreement Risk:** The Fund may enter into repurchase agreements in which it purchases a security (known as the "underlying security") from a securities dealer or bank. In the event of a bankruptcy or other default by such securities dealer or bank, the Fund could experience delays in liquidating the underlying security and losses in the event of a decline in the value of the underlying security while the Fund is seeking to enforce its rights under the repurchase agreement.
- **Short Position Risk:** The Fund's long positions could decline in value at the same time that the value of the short positions increase, thereby increasing the Fund's overall potential for loss. The Fund's short positions may result in a loss if the price of the short position instruments rise and it costs more to replace the short positions. Market factors may prevent the Fund from closing out a short position at the most desirable time or at a favorable price.

Temporary Investments: To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of

expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. The Fund intends to secure a line of credit to utilize as necessary for liquidity needs due to shareholder redemptions, but the Fund may also invest a substantial portion of its assets in the instruments described above at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Portfolio Holdings Disclosure: A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information. The Fund may, from time to time, make available month-end portfolio holdings information on the website www.deerparkfund.com. If month-end portfolio holdings are posted to the website, they are expected to be at least 60 days old and remain available until new information for the next month is posted. Shareholders may request portfolio holdings schedules at no charge by calling 1-888-868-9501.

Cybersecurity: The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the adviser, the sub-adviser and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

Investment Adviser: Princeton Fund Advisors, LLC ("Princeton"), 1125 17th Street, Suite 1400 Denver, CO 80202, serves as investment adviser to the Fund. Subject to the authority of the Board of Trustees, the adviser is responsible for management of the Fund's investment portfolio through the sub-adviser. The adviser is responsible for selecting and managing the Fund's sub-adviser and assuring that investments are made according to the Fund's investment objective, policies and restrictions. Additionally, the adviser is responsible for conducting initial and ongoing independent evaluation of the Fund's sub-adviser. The adviser was established in 2011 for the purpose of advising individuals and institutions. As of June 30, 2015, the adviser had approximately \$1.325 billion in assets under management. Greg D. Anderson and John L. Sabre of Princeton are responsible for the adviser's oversight role with respect to the Fund.

Greg D. Anderson

Manager and Chief Investment Officer

Prior to founding Princeton Fund Advisors, LLC in 2011 and certain affiliates, including Mount Yale Capital Group, LLC in 2003 and Mount Yale Asset Management in 1999, Mr. Anderson was a Senior Vice President and Managing Director of Investment Manager Search, Evaluation, and Due Diligence at Portfolio Management Consultants, Inc. Mr. Anderson was previously employed with Deloitte & Touche where he specialized in the areas of estate planning, health care and non-profit organizations, and tax and personal finance planning for high net worth individuals. Mr. Anderson holds a B.A. degree from Hamline University in Minnesota and a J.D. from the University of Minnesota School of Law. Mr. Anderson is a Certified Public Accountant (inactive).

John L. Sabre

Manager and Chief Executive Officer

Prior to founding Princeton Fund Advisors, LLC in 2011 and certain affiliates, including Mount Yale Capital Group, LLC in 2003, Mr. Sabre was a Senior Managing Director at Bear Stearns & Co. and Head of the Mezzanine Capital Group. Mr. Sabre previously served as President of First Dominion Capital, which managed \$3.0 billion of assets and is now owned by Credit Suisse First Boston. Prior to his position at First Dominion Capital, Mr. Sabre was a Managing Director and founding partner of Indosuez Capital, the merchant banking division of Credit Agricole Indosuez. Mr. Sabre holds a B.S. degree from the Carlson School at the University of Minnesota and an M.B.A. degree from the Wharton School at the University of Pennsylvania.

Pursuant to an advisory agreement between the Fund and the adviser, the adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 1.84% of the Fund's average daily net assets. The adviser pays the Fund's sub-adviser out of the fee it receives from the Fund. The Fund's adviser has contractually agreed to reduce its fees and/or absorb expenses of the Fund, for at least one year from the effective date of this prospectus, to ensure that Total Annual Fund Operating Expenses After Fee Waiver and/or Reimbursement (excluding any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, fees and expenses associated with instruments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses), borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees and contractual indemnification of Fund service providers (other than the adviser)) do not exceed 2.24%, 2.99% and 1.99% for Class A, Class C and Class I shares, respectively; subject to possible recoupment from the Fund in future years on a rolling three year basis (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits. Fee waiver and reimbursement arrangements can decrease the Fund's expenses and boost its performance. A discussion regarding the basis for the Board of Trustees' approval of the advisory and sub-advisory agreements will be available in the Fund's first semi-annual report to shareholders for the period ending January 31, 2016.

Sub-Adviser

Princeton has engaged the following sub-adviser to provide investment sub-advisory services to the Fund. Princeton compensates the sub-adviser for its services from the management fees it receives from the Fund.

Deer Park Road Management Company, LP, 1865 Ski Time Square, Suite 102, Steamboat Springs, CO 80477, is a Delaware limited partnership which provides investment services to the Fund, institutional investors, and other pooled investment vehicles, and has approximately \$1.918 billion in assets under management as of June 30, 2015.

Portfolio Managers

Michael Craig-Scheckman

Chief Executive Officer of Deer Park Road Management Company, LP

Mr. Scheckman has been in the investment business for over 30 years and has over 20 years' experience in the distressed MBS/ABS field. Mr. Craig-Scheckman worked for Millennium Partners from 1993 through 2010. He has run Deer Park Road Management Company, LP and its predecessor firm (Deer Park Corporation) from July 2003 until the present. Mr. Craig-Scheckman earned a BA in Physics at Queens College, New York, in 1975 and a MA in Physics at Columbia University, New York, in 1977.

Scott Burg

Chief Investment Officer of Deer Park Road Management Company, LP

Mr. Burg has over 8 years' experience valuing and analyzing mortgage and asset-backed securities. Prior to joining the sub-adviser's predecessor firm in 2010, he was a Principal at General Capital Partners, focused on advising middle market companies in distressed situations. Previously, he was at Pursuit Partners, a \$500 million fixed income hedge fund where his focus was on analyzing ABS opportunities. Prior to this position, Mr. Burg founded Clayton IPS's ABS pricing division, a world-wide leader of valuation for difficult to price assets. Mr. Burg received his MBA from Daniels School of Business at the University of Denver in 2007, and a B.S. in Finance from the University of Colorado in 2001.

The Fund's Statement of Additional Information provides additional information about the Portfolio Managers' compensation structure, other accounts managed by the Portfolio Managers, and the Portfolio Managers' ownership of shares of the Fund.

Prior Performance of Similarly Managed Sub-Adviser Portfolio

The sub-adviser also manages a portion of the Sandalwood Opportunity Fund, a separate series of the Trust, using an investment objective and principal investment strategies which are substantially similar to the investment objective and principal investment strategies Deer Park will use to manage the Fund's assets (the "Sub-Adviser's Portfolio"). **You should not consider the past performance of the Sub-adviser's Portfolio as indicative of the future performance of the Fund.**

The following table sets forth performance data relating to the historical performance of the Sub-Adviser's Portfolio, which is the portion of the Sandalwood Opportunity Fund managed by the sub-adviser. The Sub-Adviser's Portfolio represents all of the accounts and funds managed by the sub-adviser that have investment objectives, policies, strategies and risks substantially similar to those employed by the sub-adviser in the management of the Fund. The data, which has been

provided by the adviser and sub-adviser, is provided to illustrate the past performance of the sub-adviser in managing a sleeve within the Sandalwood Opportunity Fund using substantially similar investment strategies, as measured against the HFRX Fixed Income Index, and does not represent the performance of the Fund.

The chart below shows the historical performance of the Sub-Adviser's Portfolio and corresponds to the strategy to be employed by Deer Park as sub-adviser to the Fund. Because the performance present represents only the portion of the Sandalwood Opportunity Fund managed by Deer Park, it is also not indicative of the Sandalwood Opportunity Fund's actual performance as a whole.

Performance data is sourced from Sandalwood Opportunity Fund Class I Shares. The performance below is shown net of the current expenses for the Sandalwood Opportunity Fund (2.70%). The fees and expenses associated with an investment in Sandalwood Opportunity Fund are different from the fees and expenses (after taking into account the expense limitation agreement) associated with an investment in the Fund and the performance below represents only the Sub-Adviser's Portfolio, which is the allocated portion of the Sandalwood Opportunity Fund (approximately 30% as of December 31, 2014) managed by Deer Park, so the actual returns for the Sandalwood Opportunity Fund are different.

Performance Table
Average Annual Total Returns
(For periods ended December 31, 2014)

Deer Park Sub-Advised Portion of the Sandalwood Opportunity Fund	One Year	Two Year*	Life of Fund* (inception 11-29-12)
Class I shares			
Return before taxes	12.59%	19.23%	21.01%
Return after taxes on distributions	12.59%	19.23%	21.01%
Return after taxes on distributions and sale of Fund shares	7.14%	14.94%	16.35%
HFRX Fixed Income (reflects no deduction for fees, expenses or taxes)	(1.77)%	2.46%	3.08%

* Two-year and Life of Fund performance is annualized.

After-tax returns were calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold shares of the Fund through tax-deferred arrangements, such as 401(k) plans or Individual Retirement Accounts (IRAs). After-tax returns for other share classes are not shown and would differ from those of Class I shares.

HFRX Fixed Income - Credit Index includes strategies with exposure to credit across a broad continuum of credit sub-strategies, including Corporate, Sovereign, Distressed, Convertible, Asset Backed, Capital Structure Arbitrage, Multi-Strategy and other Relative Value and Event Driven sub-strategies. Investment thesis across all strategies is predicated on realization of a valuation discrepancy between the related credit instruments. Strategies may also include and utilize equity securities, credit derivatives, government fixed income, commodities, currencies or other hybrid securities.

HOW SHARES ARE PRICED

The net asset value ("NAV") and offering price (NAV plus any applicable sales charges) of each class of shares is determined as of the close of the New York Stock Exchange ("NYSE") (generally 4:00 p.m. (Eastern Time)) on each day the New York Stock Exchange ("NYSE") is open for business (the "Valuation Time"). NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

The Fund's securities or other investment assets for which market quotations are readily available will be valued at current market value based upon such market quotations as of the Valuation Time. The Fund may use independent pricing agents to provide current market values. Generally, the Fund's securities which are exchange traded are valued each

day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at last quoted sales price on the primary exchange. In the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price ("NOCP"). Securities not traded or dealt in on any securities exchange and for which over-the-counter market (whether domestic or foreign) quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by the relevant pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity. Absent special circumstances, valuations for a specific type of instrument will all be made through the same pricing agent, utilized by the Fund and its administrator. In the case of OTC securities valued on the basis of quotations obtained by the adviser and/or sub-adviser from broker-dealers, the price shall be based on the average prices from at least two broker-dealers believed to be reliable and knowledgeable in the security; however, if quotations cannot be obtained by the adviser or sub-adviser from at least two broker-dealers, the security may be valued on the basis of a quote obtained from a single broker-dealer.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the "fair value" procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security is materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value team composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) adviser and/or sub-adviser. The team may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results. The Fund may use independent pricing services to assist in calculating the value of the Fund's securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund. Because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of some of the Fund's portfolio securities may change on days when you may not be able to buy or sell Fund shares. In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund's portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the fair value team may need to price the security using the Fund's fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund's NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine net asset value, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund's assets that are invested in one or more open-end management investment companies registered under the 1940 Act, the Fund's net asset value is calculated based upon the net asset values of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

HOW TO PURCHASE SHARES

Share Classes

This Prospectus describes three classes of shares offered by the Fund. The main differences between the shares classes are the minimum investment, ongoing fees and sales charges. Class A and Class C shares pay an annual fee of 0.25% and 1.00%, respectively, for distribution expenses pursuant to a plan under Rule 12b-1. Class I shares do not pay such fees. For information on ongoing distribution fees, see **Distribution (12b-1) and Shareholder Servicing Fees** on page 18 of this Prospectus. In choosing which class of shares to purchase, you should consider which will be most beneficial to you, given the amount of your purchase. All classes of shares in the Fund represent interest in the same portfolio of investments in the Fund. All share classes may not be available for purchase in all states.

Class A Shares

Class A shares are offered at their public offering price, which is NAV plus the applicable sales charge and is subject to 12b-1 distribution fees of up to 0.25% of the average daily net assets of Class A shares. Over time, these fees paid under the 12b-1 Plan will increase the cost of a Class A shareholder's investment and may cost more than the applicable sales charges. The minimum initial investment in Class A shares of the Fund is \$2,500 for retirement plan accounts and \$2,500 for all other accounts. The minimum subsequent investment in Class A shares of the Fund is \$100 for retirement plan accounts and \$100 for all other accounts. However, the Fund reserves the right to waive investment minimums for certain types of investors, including current and retired directors and officers of the Fund, the adviser, the sub-adviser or any of its subsidiaries, their families (e.g., spouse, children, mother or father) and any purchases referred through the adviser; employees of the adviser, the sub-adviser and their families, or any full-time employee or registered representative of the distributor or of broker-dealers having dealer agreements with the distributor (a "Selling Broker") and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons); or clients of financial intermediaries that have entered into arrangements with the distributor providing for the shares to be used in particular investment products made available to such clients. The sales charge varies, depending on how much you invest. There are no sales charges on reinvested distributions. The following sales charges, which may be waived as described under *Sales Charge Waivers* below, apply to your purchases of Class A shares of the Fund:

Amount Invested	Sales Charge as a % of Offering Price ⁽¹⁾	Sales Charge as a % of Amount Invested	Dealer Reallowance
Under \$25,000	5.75%	6.10%	5.00%
\$25,000 to \$49,999	5.00%	5.26%	4.25%
\$50,000 to \$99,999	4.75%	4.99%	4.00%
\$100,000 to \$249,999	3.75%	3.83%	3.25%
\$250,000 to \$499,999	2.50%	2.56%	2.00%
\$500,000 to \$999,999	2.00%	2.04%	1.75%
\$1,000,000 and above	1.00%	1.01%	1.00%

(1) Offering price includes the front-end sales load. The sales charge you pay may differ slightly from the amount set forth above because of rounding that occurs in the calculation used to determine your sales charge.

How to Reduce Your Sales Charge

You may be eligible to purchase Class A shares at a reduced sales charge. To qualify for these reductions, you must notify the Fund's distributor, Northern Lights Distributors, LLC (the "distributor"), in writing and supply your account number at the time of purchase. You may combine your purchase with those of your "immediate family" (your spouse and your children under the age of 21) for purposes of determining eligibility. If applicable, you will need to provide the account numbers of your spouse and your minor children as well as the ages of your minor children.

Rights of Accumulation: To qualify for the lower sales charge rates that apply to larger purchases of Class A shares, you may combine your new purchases of Class A shares with Class A shares of the Fund that you already own. The applicable initial sales charge for the new purchase is based on the total of your current purchase and the current value of all other Class A shares that you own. The reduced sales charge will apply only to current purchases and must be requested in writing when you buy your shares.

Shares of the Fund held as follows cannot be combined with your current purchase for purposes of reduced sales charges:

- Shares held indirectly through financial intermediaries other than your current purchase broker-dealer (for example, a different broker-dealer, a bank, a separate insurance company account or an investment adviser);
- Shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (for example, a 401(k) plan) other than employer-sponsored IRAs;
- Shares held directly in the Fund account on which the broker-dealer (financial adviser) of record is different than your current purchase broker-dealer.

Letters of Intent: Under a Letter of Intent ("LOI"), you commit to purchase a specified dollar amount of Class A shares of the Fund, with a minimum of \$25,000, during a 13-month period. At your written request, Class A shares purchases made during the previous 90 days may be included. The amount you agree to purchase determines the initial sales charge you pay. If the full-face amount of the LOI is not invested by the end of the 13-month period, your account will be adjusted to

the higher initial sales charge level for the amount actually invested. You are not legally bound by the terms of your LOI to purchase the amount of your shares stated in the LOI. The LOI does, however, authorize the Fund to hold in escrow 5% of the total amount you intend to purchase. If you do not complete the total intended purchase at the end of the 13 month period, the Fund's transfer agent will redeem the necessary portion of the escrowed shares to make up the difference between the reduced rate sales charge (based on the amount you intended to purchase) and the sales charge that would normally apply (based on the actual amount you purchased).

Repurchase of Class A Shares: If you have redeemed Class A shares of the Fund within the past 120 days, you may repurchase an equivalent amount of Class A shares of the Fund at NAV, without the normal front-end sales charge. In effect, this allows you to reacquire shares that you may have had to redeem, without repaying the front-end sales charge. You may exercise this privilege only once and must notify the Fund that you intend to do so in writing. The Fund must receive your purchase order within 120 days of your redemption. Note that if you reacquire shares through separate installments (e.g., through monthly or quarterly repurchases), the sales charge waiver will only apply to those portions of your repurchase order received within 120 days of your redemption.

Sales Charge Waivers

The sales charge on purchases of Class A shares is waived for certain types of investors, including:

- Current and retired directors and officers of the Fund, the adviser, the sub-adviser or any of its subsidiaries, their families (e.g., spouse, children, mother or father) and any purchases referred through the adviser.
- Employees of the adviser, the sub-adviser and their families, or any full-time employee or registered representative of the distributor or of broker-dealers having dealer agreements with the distributor (a "Selling Broker") and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons).
- Any full-time employee of a bank, savings and loan, credit union or other financial institution that utilizes a Selling Broker to clear purchases of the Fund's shares and their immediate families.
- Participants in certain "wrap-fee" or asset allocation programs or other fee-based arrangements sponsored by broker-dealers and other financial institutions that have entered into agreements with the distributor.
- Clients of financial intermediaries that have entered into arrangements with the distributor providing for the shares to be used in particular investment products made available to such clients and for which such registered investment advisers may charge a separate fee.
- Institutional investors (which may include bank trust departments and registered investment advisers).
- Any accounts established on behalf of registered investment advisers or their clients by broker-dealers that charge a transaction fee and that have entered into agreements with the distributor.
- Separate accounts used to fund certain unregistered variable annuity contracts or Section 403(b) or 401(a) or (k) accounts.
- Employer-sponsored retirement or benefit plans with total plan assets in excess of \$5 million where the plan's investments in the Fund are part of an omnibus account. A minimum initial investment of \$1 million in the Fund is required. The distributor in its sole discretion may waive these minimum dollar requirements.

The Fund does not waive sales charges for the reinvestment of proceeds from the sale of shares of a different fund where those shares were subject to a front-end sales charge (sometimes called an "NAV transfer").

Class C Shares: Class C shares of the Fund are sold at NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund. Class C shares pay up to 1.00% on an annualized basis of the average daily net assets as reimbursement or compensation for service and distribution-related activities with respect to the Fund and/or shareholder services, which amount is accrued and paid monthly. Over time, these fees paid under the 12b-1 Plan will increase the cost of a Class C shareholder's investment and may cost more than other types of sales charges. The minimum initial investment in Class C shares of the Fund is \$2,500 for retirement plan accounts and \$2,500 for all other accounts. The minimum subsequent investment in Class C shares of the Fund is \$100 for retirement plan accounts and \$100 for all other accounts. However, the Fund may waive investment minimums for the type of investors described above on page 13.

Class I Shares: Class I shares of the Fund are sold at NAV without an initial sales charge and are not subject to 12b-1 distribution fees, but have a higher minimum initial investment than Class A shares. This means that 100% of your initial investment is placed into shares of the Fund. Class I shares require a minimum initial investment of \$100,000 and minimum subsequent investment of \$100. However, the Fund may waive investment minimums for the type of investors described above on page 13.

Purchasing Shares: You may purchase shares of the Fund by sending a completed application form to the following address:

Via Regular Mail
DEER PARK TOTAL RETURN CREDIT FUND
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

Via Overnight Mail
DEER PARK TOTAL RETURN CREDIT FUND
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, Nebraska 68130

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the Application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund at 1-888-868-9501 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automatic Investment Plan: You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$100 on specified days of each month into your established Fund account. Please contact the Fund at 1-888-868-9501 for more information about the Fund's Automatic Investment Plan.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a wire transfer or a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to "Deer Park Total Return Credit Fund". The Fund will not accept payment in cash, including cashier's checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares.

Note: Gemini Fund Services, LLC, the Fund's transfer agent, will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any check returned to the transfer agent for insufficient funds.

When Order is Processed: All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before 4:00 p.m. (Eastern Time) on a day the NYSE is open (each a "business day") will be processed on that same day. Requests received after 4:00 p.m. will be processed on the next business day.

Good Order: When making a purchase request, make sure your request is in good order. "Good order" means your purchase request includes:

- the name of the Fund and share class
- the dollar amount of shares to be purchased
- a completed purchase application or investment stub check payable to the "Deer Park Total Return Credit Fund"

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Fund at 1-888-868-9501 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

HOW TO REDEEM SHARES

Redeeming Shares: You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

Via Regular Mail
DEER PARK TOTAL RETURN CREDIT FUND
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

Via Overnight Mail
DEER PARK TOTAL RETURN CREDIT FUND
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, Nebraska 68130

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts except retirement accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account.

The proceeds will be sent by mail to the address designated on your account or wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 1-888-868-9501. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of your telephone instructions. IRA accounts are not redeemable by telephone.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund's transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Automatic Withdrawal Plan: If your individual accounts, IRA or other qualified plan account have a current account value of at least \$10,000, you may participate in the Fund's Automatic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$100 on specified days of each month into your established bank account. Please contact the Fund at 1-888-868-9501 for more information about the Fund's Automatic Withdrawal Plan.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders by making payment in whole or in part in readily marketable securities ("redemption in kind") if the amount is greater than the lesser of \$250,000 or 1% of the Fund's assets. The securities will be chosen by the Fund and valued under the Fund's net asset value procedures. A shareholder will be exposed to market risk until these securities are converted to cash and may incur transaction expenses in converting these securities to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in "good order" as described below, it will issue a check based on the next determined NAV following your redemption request. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of a request in "good order." However, under the 1940 Act, a shareholder's right to redeem shares and to receive payment therefore may be suspended at times (a) when the NYSE is closed, other than customary weekend and holiday; (b) when trading on that exchange is restricted for any reason; (c) when an emergency exists as a result of which disposal by the Fund of securities owned by it is not reasonably practicable or it is not reasonably practicable for the Fund fairly to determine the value of its net assets, provided that applicable rules and regulations of the Securities and Exchange Commission (or any succeeding governmental authority) will govern as to whether the conditions prescribed in (b) or (c) exist; or (d) when the Securities and Exchange Commission by order permits a suspension of the right to redemption or a postponement of the date of

payment on redemption. In case of suspension of the right of redemption, payment of a redemption request will be made based on the NAV next determined after the termination of the suspension. If you purchase shares using a check and soon after request a redemption, your redemption proceeds will not be sent until the check used for your purchase has cleared your bank (usually within 10 days of the purchase date).

Good Order: Your redemption request will be processed if it is in "good order." To be in good order, the following conditions must be satisfied:

- The request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- The request must identify your account number;
- The request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- If you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

Low Balances: If at any time your account balance in the Fund falls below \$2,500, the Fund may notify you that, unless the account is brought up to at least \$2,500 within 60 days of the notice; your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below \$2,500 due to a decline in NAV.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund currently uses several methods to reduce the risk of market timing, including committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy."

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders. Generally exchange activity is considered excessive if shares of the Fund are exchanged or redeemed within seven calendar days of purchase or exchange activity exceeds 1% of the net asset value of the Fund.

Based on the frequency of redemptions in your account, the adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to reject or limit the amount, number, frequency or method for requesting future purchases or exchanges into the Fund.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the adviser will be liable for any losses resulting from rejected purchase orders. The Fund may also bar an investor who has violated these policies (and the investor's financial adviser) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. The risk also exists that because such methods are inherently subjective, the discretionary application of the Fund's response to potential market timing actions may not be uniformly applied. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income and net capital gains at least annually. Certain distributions may be deemed a return of capital. All distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Distribution Policy and Goals

Except during periods of substantial asset growth, the level of distributions (including any return of capital) is not fixed but is expected to be in a range equivalent to 3% to 8% of the Fund's current net asset value per share, expressed as an annual rate. Additionally, the Fund's distribution policy is not designed to generate or guarantee distributions that equal a fixed percentage of the Fund's current net asset value per share.

The Fund generally distributes to shareholders substantially all of its net income (which includes, for example, interest and dividends) as well as substantially all of its net capital gains (that is, long-term capital gains from the sale of portfolio securities and short-term capital gains from both the sale of portfolio securities). In addition, pursuant to its distribution

policy, the Fund may make distributions that are treated as a return of capital. Return of capital is the portion of a distribution that is the return of your original investment dollars in the Fund. A return of capital is not taxable to a shareholder unless it exceeds a shareholder's tax basis in the shares.

Returns of capital reduce a shareholder's tax cost (or "tax basis"). Once a shareholder's tax basis is reduced to zero, any further return of capital would be taxable. Shareholders receiving periodic payments from the Fund may be under the impression that they are receiving net profits. However, all or a portion of a distribution may consist of a return of capital (i.e. from your original investment). Shareholders should not assume that the source of a distribution from the Fund is net profit. Shareholders should note that return of capital will reduce the tax basis of their shares and potentially increase the taxable gain, if any, upon disposition of their shares. As required under the 1940 Act, the Fund will provide a notice to shareholders at the time of distribution when such distribution does not consist solely of net income. Additionally, each distribution payment will be accompanied by a written statement which discloses the source or sources of each distribution. The IRS requires you to report these amounts, excluding returns of capital, on your income tax return for the year declared. The Fund will provide disclosures, with each distribution, that estimate the percentages of the current and year-to-date distributions that represent (1) net investment income, (2) qualified dividends, (3) capital gains and (4) return of capital. At the end of the year, the Fund may be required under applicable law to re-characterize distributions made previously during that year among (1) ordinary income, (2) capital gains and (3) return of capital for tax purposes. An additional distribution may be made in December, and other additional distributions may be made with respect to a particular fiscal year in order to comply with applicable law. Distributions declared in December, if paid to shareholders by the end of January, are treated for federal income tax purposes as if received in December.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisers to determine the tax consequences of owning the Fund's shares.

DISTRIBUTION OF SHARES

Distributor: Northern Lights Distributors, LLC, (the "Distributor") located at 17605 Wright Street, Omaha, Nebraska 68130, is the distributor for the shares of the Fund. Distributors is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Shares of the Fund are offered on a continuous basis.

Distribution (12b-1) and Shareholder Servicing Fees: The Trust, with respect to the Fund, has adopted the Trust's Master Distribution and Shareholder Servicing Plans ("12b-1 Plans" or "Plans"), for each of Class A and Class C shares pursuant to Rule 12b-1 of the 1940 Act which allows the Fund to pay the Fund's Distributor an annual fee for distribution and shareholder servicing expenses of up to 0.25% of the Fund's average daily net assets attributable to Class A shares and 1.00% of the Fund's average daily net asset attributable to Class C shares. Because these fees are paid out of the Fund's assets on an on-going basis, overtime these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

The Fund's Distributor and other entities are paid pursuant to the Plan for distribution and shareholders servicing provided and the expenses borne by the Distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the Distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

Additional Compensation to Financial Intermediaries: The Distributor, the Fund's affiliates, and the adviser and its affiliates may each, at its own expense and out of its own assets including their legitimate profits from Fund-related activities, provide additional cash payments, travel or other expense reimbursements to financial intermediaries who sell shares of the Fund or assist in the marketing of the Fund, including placement agents and marketing specialists. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the Rule 12b-1 fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, conference sponsorships, costs or expenses of attending adviser-sponsored due diligence conferences, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The Distributor may, from time to time, provide promotional incentives to certain investment firms. Such incentives may, at the distributor's discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional compensation.

Householding: To reduce expenses, the Fund mails only one copy of a Prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-888-868-9501 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

Because the Fund has only recently commenced investment operations, no financial highlights are available for the Fund at this time. In the future, financial highlights will be presented in this section of the Prospectus.

PRIVACY NOTICE

Rev. February 2014

FACTS WHAT DOES NORTHERN LIGHTS FUND TRUST DO WITH YOUR PERSONAL INFORMATION?

Why? Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What? The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- Social Security number
- Assets
- Retirement Assets
- Transaction History
- Checking Account Information
- Purchase History
- Account Balances
- Account Transactions
- Wire Transfer Instructions

When you are *no longer* our customer, we continue to share your information as described in this notice.

How? All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Northern Lights Fund Trust chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does Northern Lights Fund Trust share?	Can you limit this sharing?
For our everyday business purposes – such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes – to offer our products and services to you	No	We don't share
For joint marketing with other financial companies	No	We don't share
For our affiliates' everyday business purposes – information about your transactions and experiences	No	We don't share
For our affiliates' everyday business purposes – information about your creditworthiness	No	We don't share
For nonaffiliates to market to you	No	We don't share

Questions? Call (402) 493-4603

Who we are

Who is providing this notice? Northern Lights Fund Trust

What we do

How does Northern Lights Fund Trust protect my personal information? To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

Our service providers are held accountable for adhering to strict policies and procedures to prevent any misuse of your nonpublic personal information.

How does Northern Lights Fund Trust collect my personal information? We collect your personal information, for example, when you

- Open an account
- Provide account information
- Give us your contact information
- Make deposits or withdrawals from your account
- Make a wire transfer
- Tell us where to send the money
- Tells us who receives the money
- Show your government-issued ID
- Show your driver's license

We also collect your personal information from other companies.

Why can't I limit all sharing?

Federal law gives you the right to limit only

- Sharing for affiliates' everyday business purposes – information about your creditworthiness
- Affiliates from using your information to market to you
- Sharing for nonaffiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.

Definitions

Affiliates Companies related by common ownership or control. They can be financial and nonfinancial companies.

- *Northern Lights Fund Trust doesn't share with our affiliates.*

Nonaffiliates Companies not related by common ownership or control. They can be financial and nonfinancial companies

- *Northern Lights Fund Trust does not share with nonaffiliates so they can market to you.*

Joint marketing A formal agreement between nonaffiliated financial companies that together market financial products or services to you.

- *Northern Lights Fund Trust doesn't jointly market.*
